Douglas Hemingway – Curriculum Vitae

Assistant Research Professor, University of Texas Institute for Geophysics, University of Texas at Austin
douglas.hemingway@utexas.edu
http://douglashemingway.com

RESEARCH INTERESTS

Geophysical modeling of planetary interiors. The evolution and behavior of rocky and icy bodies and what gives rise to all the diversity we see across our solar system and beyond. Focus areas include planetary magnetism and icy ocean worlds.

EDUCATION

2010–2015	PhD, Earth & Planetary Sciences, University of California Santa Cruz, Santa Cruz, CA, USA
2008–2009	MSc, *cum laude*, Space Studies, International Space University, Strasbourg, Alsace, France
1996–2001	BASc, *first class honours*, Systems Design Engineering, University of Waterloo, Waterloo, ON, Canada

PROFESSIONAL APPOINTMENTS

2022-present	Assistant Research Professor, University of Texas Institute for Geophysics, University of Texas at Austin, USA
2020-2022	Chief Scientist and Senior Director, Civil Space Business Development, Maxar Technologies, Palo Alto, CA, USA
2018–2020	Carnegie Fellow, Carnegie Institution for Science, Washington, DC, USA
2015–2018	Miller Fellow, Miller Institute for Basic Research in Science, University of California Berkeley, Berkeley, CA, USA
2010–2015	Graduate Student Researcher, University of California Santa Cruz, Santa Cruz, CA, USA
2009	Graduate Student Intern, JAXA Institute of Space and Astronautical Science (ISAS), Sagamihara, Japan
2001–2010	Space Robotics Operations & Controls Engineering, MDA Space Missions, Brampton, ON, Canada
1997–2001	Student Researcher/Manager, Waterloo Aerial Robotics Group, University of Waterloo, Waterloo, ON, Canada

SELECTED AWARDS, HONORS, GRANTS

2024	Principal Investigator for NASA Habitable Worlds grant
2024	Principal Investigator for NASA Solar System Workings grant
2023	Co-Investigator for NASA Cassini Data Analysis Program grant
2018	Carnegie Postdoctoral Fellowship, Carnegie Institution for Science
2015	Miller Research Fellowship, University of California Berkeley
2014	Student's choice award for outstanding TA, Honorable Mention, University of California Santa Cruz
2013	Waters Award for outstanding PhD research proposal, University of California Santa Cruz
2012	Dwornik Award for best graduate student oral presentation at 43rd Lunar and Planetary Science Conference
2010	Chancellor's Fellowship, University of California Santa Cruz
2008	European Space Agency full scholarship award, International Space University
2005	NASA Goddard Space Flight Center Outstanding Teamwork Award, and MDA Innovation Award for initial concept development and demonstrations of robotic servicing capability for the Hubble Space Telescope

PROFESSIONAL ACTIVITIES

2015-present	Research proposal writing: NASA: CDAP, SSW, HW, LDAP
2015-present	Mission/technology proposal writing: NASA: Discovery, PRISM, LTV; DARPA
2013-present	Panelist or external reviewer for: NASA ROSES; ETH Zurich
2013-present	Peer review: NASA Planetary Data System archives; *Earth & Planetary Science Letters*; *Earth & Space Science; Geophysical Research Letters*; *Icarus; Journal of Geophysical Research: Planets; Monthly Notices of the Royal Astronomical Society; Nature Astronomy; Nature Geoscience; Planetary Science Journal*
2010-present	Member of the American Geophysical Union
2009-present	Member of the Planetary Society
2021-2022	Keck Institute for Space Studies: Next Generation Planetary Geodesy
2013-2018	Cassini team associate (RADAR and Radio Science teams)
2014	NASA JPL Planetary Science Summer School (Uranus orbiter mission design with Team X)

TEACHING, OUTREACH, MEDIA

2002–present	Space sciences and engineering outreach talks and activities for K-12 students
2024	Invited presenter at Texas Space Grant total solar eclipse event with Smilin V Scout Ranch
2024	Interviewed for Heights of Humanity podcast (long-form)
2019	Interviewed for CBC (Canadian Broadcasting Corporation) radio "As It Happens" for Enceladus ice shell paper
2015	Instructor, UC Santa Cruz, Earth & Planetary Sciences, *EART110C (Upper Division Geophysics)*
2014	Teaching Assistant, UC Santa Cruz, Earth & Planetary Sciences, *EART110C (Upper Division Geophysics)*
2013	Interviewed for ABC (Australian Broadcasting Corporation) radio "Star Stuff" for Titan ice shell paper
2005	Featured in Discovery Science Channel special "Hubble and Beyond" while at NASA GSFC
2004	Trained NASA and ESA astronauts to carry out tele-robotic servicing of the Hubble Space Telescope
2000	Interviewed for Discovery Science Channel special "Airbots" at the International Aerial Robotics Competition

INVITED SEMINARS

2024	German Aerospace Center (DLR), Institute of Planetary Research; Carnegie Institution for Science, Earth & Planets Laboratory
2023	Baylor University, Department of Geosciences; University of Texas at Austin, Center for Planetary Systems Habitability
2022	University of Texas at Austin, Institute for Geophysics
2021	University of Oxford, Earth Sciences
2020	Planetary Science Institute; Johns Hopkins University, Earth & Planetary Sciences; University of Maryland, Department of Geology; University of New Mexico, Earth & Planetary Sciences; University of Oxford, Earth Sciences
2019	University of Cambridge, Earth Sciences; Rutgers University, Earth & Planetary Sciences; NASA Jet Propulsion Laboratory; Smithsonian Natural History Museum, Department of Mineral Sciences; University of Nantes, Laboratoire de Planétologie et Géodynamique; Carnegie Institution for Science, Department of Terrestrial Magnetism; NASA Goddard Space Flight Center, Planetary Geology, Geophysics & Geochemistry; University of Maryland, Department of Astronomy
2018	Cornell University, Department of Astronomy; UC Berkeley Center for Integrative Planetary Science; Harvard University, Earth & Planetary Sciences; Rutgers University, Earth & Planetary Sciences; Caltech, Division of Geological & Planetary Sciences
2017	Massachusetts Institute of Technology, Earth, Atmospheric & Planetary Sciences; San Jose State University, Geology Club; UC Berkeley, Earth & Planetary Sciences; Fresno State University, Earth & Environmental Sciences; Caltech, Planetary Sciences Seminar; San Francisco State University, Earth & Climate Sciences
2016	UC Berkeley, Center for Integrative Planetary Science; UC Berkeley, Space Sciences Laboratory / Space Physics Seminar; NASA Jet Propulsion Laboratory, Science Division
2015	UC Berkeley, Berkeley Seismo Lab
2013	Lunar and Planetary Institute
